Alterations in the rules regarding the issue of short-term licences under the Madras Motor Vehicles Taxation Act.

Fort St. George, January 5, 1940
(G.O. Ms. No. 30, Home).

PRESS COMMUNIQUE.

No. 29.

The following alterations in the rules regarding the issue of short-term licences under the Madras Motor Vehicles Taxation Act are announced for the information of motorists:—

(a) A person who brings a motor vehicle into the Madras Presidency by land from an adjoining State or Province for a short stay is allowed to obtain a temporary 7-day or 30-day licence under the Madras Motor Vehicles Taxation Act, 1931, instead of the usual quarterly licence, provided that he obtains it in advance on an application made to the Commissioner of Police, Madras, or to any other licensing officer. The production of a temporary licence is not, however, at present insisted upon if an applicant produces a postal money-order receipt showing that the prescribed tax has been remitted to a licensing authority.

Arrangements have now been in existence for some time for the issue of such temporary licences in almost all police stations and police outposts at the frontiers of the Province, and by certain officers in the neighbouring Indian States. In view of these extended facilities for obtaining temporary licences, the Government consider that it is no longer necessary to continue the concession of accepting, in lieu of a licence, a money-order receipt showing that the tax has been remitted. This concession has therefore been withdrawn.

(b) Short-term licences facilities are at present available only in respect of motor vehicles brought into the Madras Presidency for short visits by land from adjoining jurisdictions. It has been represented to the Government that such facilities should be extended to persons who buy cars in this Province with the intention of taking them immediately, or within a short period, outside this Province. The Government have accepted this suggestion and have issued instructions accordingly.

The following notification of the Chief Commissioner of Coorg is republished :—

Bangalore, the 28th November 1939

(Plague Regulations in force in Coorg)

D. Dis. No. 190/341-39.—Whereas the Chief Commissioner is satisfied that certain parts of the Province of Coorg are visited by, and other parts are threatened with, an outbreak of the dangerous disease known as plague;

And whereas the ordinary provisions of the law for the time being in force in the said Province are insufficient to prevent the outbreak of such disease or the spread thereof;

Now, therefore, in exercise of the powers conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), and in supersession of the regulations issued with his Notification D. Dis. No. 165/367-38, dated the 23rd November 1938, the Chief Commissioner is hereby pleased to prescribe the following temporary regulations to be observed throughout the said Province for a period of one year from the 1st December 1939.—

General Organisation.

1. The general supervision of the arrangements for dealing with plague in Coorg is vested in the Commissioner, under the control of, and subject to report in all important matters to the Chief Commissioner. The Commissioner shall have authority to depute, either generally or specially, to the Assistant Commissioners or any other person, any powers which may under this regulation, be exercised by him: provided that any such delegation shall at once be reported to the Chief Commissioner.

2. The Commissioner may in cases of emergency issue such orders relating to matters not specifically dealt with herein as may appear necessary, provided that they do not conflict with the general principles of these rules.

3. Subject to the general control of the Commissioner, the Civil Surgeon, as Chief Health Officer of the Province is directly responsible for the conduct of purely medical arrangements in connexion with plague.

4. The term "Medical Officer" in these rules means and includes—

(a) the Civil Surgeon,

(b) the Assistant Health Officer, the Resident Medical Officer, Virajpet, or Sub-Assistant Surgeon in charge of a Government or district board dispensary or hospital, or detailed for special plague duty by the Civil Surgeon,

(c) the Sanitary Inspectors of Coorg and their Sanitary Assistants,

(d) any other person appointed by the Chief Commissioner to be a Medical Officer for the purposes of these rules.

5. Any orders issued or action taken of special importance or general application by any person exercising authority under these rules shall be immediately reported to the Commissioner.

6. A copy of any general orders issued by the Commissioner to the Civil Surgeon, Assistant Commissioners or other person so empowered under rule 1 shall immediately be sent to the Chief Commissioner.

7. A report of any outbreak of plague shall be sent without delay by the Civil Surgeon to the Commissioner, who will report the same to the Chief Commissioner. Unless the Commissioner by special orders otherwise directs, weekly reports and monthly statements in the prescribed form shall be sent by the Civil Surgeon to the Commissioner who will report the same to the Chief Commissioner.

Precautions against the importation of plague.

8. The heads of villages are empowered to prevent the entrance of strangers (other than Government officers) from infected parts into their villages for a period of ten days, and any person attempting to enter any such village after being warned against such entry will render himself liable to be dealt with under rule 22 infra.

9. Patels and all Government officials not being local authorities shall report to the nearest local authority the arrival of any person known to have come from an infected area as soon as possible. By local authority is meant—

(e) the village patel in default of (a) (b), (c) and (d).

10. If the report be made to a Medical Officer he shall arrange to observe such person in such manner as the Civil Surgeon may by rule prescribe. Provided that no gosha female shall be required to present herself for inspection but that she may be examined at her residence by a female deputed for the purpose by a local authority.

If the report be made to a Patpattigar, Station-house Officer, estate owner, superintendent or agent or village patel he shall keep such person under such observation as may be possible for ten days, and shall report to the nearest Medical Officer with the least possible delay any case of high fever with glandular swellings or other suspicious symptoms which the person under observation may develop.

11. All persons entering Coorg from an area suspected to be infected with plague may be required to be inoculated against plague if they do not hold a certificate of inoculation and to expose all their belongings or merchandise to the sun for not less than three hours either at the boundary of Coorg or at any other place appointed by the Commissioner and they may be required to obtain certificates showing that the same has been carried out before being allowed to proceed further into Coorg.

In the case of persons leaving an infected area in Coorg, such persons may, before leaving the infected area be required (1) to obtain a certificate certifying that they themselves and all members of their household have been inoculated against plague, and (2) to expose their belongings or merchandise for not less than three hours at the place appointed by the Medical Officer.

12 (a) It shall be the duty of every person to report in the nearest village patel or one of the officers of the Health department or dispensary or to the Civil Surgeon the occurrence of any mortality among rats or a case of plague or of high fever with glandular swelling or other suspicious symptoms in any human being.

(b) Every estate owner, superintendent or agent shall report at once to the nearest Medical Officer, Perayattagar or station house Officer, the occurrence of any mortality among rats on the estate as well as the occurrence of a case of plague or of high fever with glandular swelling or of unusual sickness among the coolies or others employed on the estate under his charge or in his possession.

15 Patients suffering from plague who or whose relations object to the use of English medicine shall be permitted to avail themselves of the services of native practitioners.

16. Any building or place which is required for and is in the opinion of the Civil Surgeon, or the Medical Officer deputed by him in this behalf, suitable for the accommodation of persons suffering from plague or of those who have been in contact with them, may be entered upon and occupied by the Commissioner (if untenanted, without any notice whatsoever and), if tenanted after 24 hours' notice in writing conspicuously posted on such house or building) and may be used for the purposes of such accommodation, and the owner or lessee of such building or place shall not be entitled to anything beyond a reasonable rent for the period during which the Commissioner, provided that the Commissioner shall be bound, thoroughly to cleanse and disinfect the ground or building and, in the case of buildings also to whitewash it internally and externally before vacating it.

In cases in which bodies are burnt, this shall be completely done in an isolated locality. The expense in the case of persons who have died of plague whose relatives are unable to pay for their proper disposal may be by order of Commissioner, paid out of plague funds.

19. In an infected area the Commissioner or a Medical Officer with the previous sanction of the Commissioner, may order the evacuation of infected houses and houses in their neighbourhood, or generally of an infected locality :

Provided that, before issuing an authorising an order for compulsory evacuation, the Commissioner shall either provide adequate and suitable shelter within reasonable distance for the persons evicted, together with the necessary water-supply and arrangements for watch and ward or shall satisfy himself that such shelter and water-supply have been provided. The Commissioner shall also satisfy himself that the compulsory evacuation is necessary to avert the further spread of the disease, or is in the interests of the affected population, taking account of climatic conditions.

The Commissioner may require all persons who evacuate their houses voluntarily, or are evicted, under this regulation, to reside in such place as he may appoint.

If the Commissioner is of opinion that the destruction of any hut or shed is necessary to prevent the spread of plague, he may take summary measures for the destruction of such hut or shed and of the materials of which it is constructed.

The Commissioner or any other person authorized by him in his behalf may direct that any building or place shall be inspected and disinfected and that all rats found therein shall be destroyed, and he may so frustrate the same, under the temporary removal of any articles from such premises.

20. In an infected area or in a district adjoining an infected area the Commissioner may close any existing market and may appoint special places where markets may be held and may prescribe limits beyond which it shall not be lawful for persons bringing articles for sale from or to an infected area to pass.

21. The Commissioner may direct that at any place in his district any consignment of grain or other produce or merchandise or goods being conveyed by road or otherwise, shall be examined, and shall, if necessary, be unloaded and exposed to the sun in such manner and for such period as he may fix.

22 Any person disobeying or contravening or refusing to submit himself to any regulation made under the Epidemic Diseases Act, 1897, or obstructing any measure which has been taken by Government or which any authority or officer appointed under competent authority to carry out such regulation has been required or empowered to take under any such regulation, shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code, and shall be liable on conviction to imprisonment of either description for a term which may extend to six months, or fine which may extend to one thousand rupees or both.

If the papers have been spoilt, they shall be returned to the Returning Officer who shall cancel the same on receipt. 11. Every elector desirous of recording his vote shall, after filling up the declaration paper and the voting paper according to the directions given in the letter of intimation, enclose the voting paper in the voting paper cover, stick it up, enclose this cover and the declaration paper in the outer envelope addressed to the Returning Officer and send it by registered post at his own cost to the Returning Officer so as to reach him not later than the day and the latest hour fixed for the poll. All envelopes received after such day and hour as well as envelopes received by unregistered post shall be rejected:

Provided that, at his option, the elector may in person or by messenger deposit the envelope containing the declaration paper and the closed cover containing the voting paper, in the ballot box which shall be provided at the office of the Returning Officer on the day and during the hours fixed for the poll.

12. On receipt of the envelopes by registered post containing the declaration paper and the closed cover containing the voting paper the Returning Officer shall endorse on the outer envelope the date and hour of receipt.

(e) more than one declaration or voting paper cover have been enclosed in one and the same outer envelope.

(e) it is void for uncertainty of one or more votes exercised.

Provided that where more than one vote can be given on the same voting paper, if one of the marks is so placed as to render it doubtful to which candidate it is intended to apply, the vote concerned, but not the whole voting paper shall be invalid on that account.

(3) Every candidate may be present in person or may send a representative duly authorized by him in writing to watch the process of counting.

(4) The Returning Officer shall show the voting papers, if requested to do so, to the candidates or their authorized representatives, at the time of scrutiny and counting of votes.

(5) If any objection is made to any voting paper on the ground that it does not comply with the instructions thereon or to the rejection by the Returning Officer of a voting paper, it shall be decided at once by the Returning Officer whose decision shall be final.

15. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates as the case may be to whom the largest number of votes has been given to be duly elected.

(2) When an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared duly elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

18. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election and shall return the same for a period of six months and thereafter cause them to be destroyed.

Madras Commerce Report for the month of November 1939.

Prices of most commodities strengthened during the month of November. There was a considerable appreciation in cotton values, Broach futures in Bombay being driven up through speculation from Rs 232 at the beginning to about Rs 280 at the end of the month, and this rise was reflected in local prices. The upward trend of prices of tanned hides, tanned goat skins and tanned sheep skins continued. Prices of groundnut improved consequent on increased demand. The demand for paddy and rice was normal and prices were firm. There was an improved demand for copra and coconut oil and prices advanced. The Cuttack coir yarn market was steady and prices underwent little alteration. The Calicut ginger market advanced owing to restricted stock and strong Indian demand and closed steady. There was some improvement in the pepper market owing to better demand from Bombay and Calcutta and prices closed higher on balance. The Madras sugar market continued firm and prices appreciated, the market closing strong with an upward tendency. The demand for locally manufactured acids and chemicals was good.

Groundnut.

Prices improved consequent on increased demand. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Per candy of 500 lb.

27th October 1939—Rs. 24-15-0 to Rs. 26-8-0.
30th November 1939—Rs. 28 to Rs. 30-15-0

Paddy and Rice.

The tone of the market was steady, with normal arrivals, and prices showed a slight improvement. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Indian paddy per bag of 150 lb.

27th October 1939—Rs. 4-14-0 to Rs. 5-4-0.
30th November 1939—Rs. 5-2-0 to Rs. 5-10-0.

Indian rice per bag of 170 lb.

27th October 1939—Rs. 6-9-8 to Rs. 8-2-0.
30th November 1939—Rs. 6-11-0 to Rs. 8-10-0.

Rangoon rice—raw, broken, A-1, per bag of 200 lb.

31st October 1939—Rs. 5-12-0, Madras.
30th November 1939—Rs. 9-8-0, Madras.

Calcutta rice (Nagara) boiled, per bag of 164 lb.

31st October 1939—Rs. 8-15-0, Madras.
30th November 1939—Rs. 9, Madras.

Coconut Products.

The market for Quilandy coir yarn remained steady throughout the month owing to fair Indian and moderate European demand. Owing to fair European and strong Indian demand from Gulf Ports, the market for Beypore yarns firmed up towards the end of the month. The market for Calicut unsoaked yarn remained steady owing to fair European demand. Low stocks of copra and improved demand for coconut oil accounted for a further increase in prices, but later on arrivals of copra increased and a decline in demand for both the commodities accounted for a decrease in prices, which, however, were standing appreciably higher at the end, than at the beginning of the month.

Cotton.

Tinnevellies.—Several mills appeared to be short of cotton for 20s yarn and mills and dealers were anxious to acquire the small unsold quantity available, so that, prices were forced up gradually from about Rs. 195 for 784 lb at the beginning to about Rs 260 at the end of the month for average quality. Most of the unsold stocks had been bought up by the end of the month and only a few hundred bales remained unsold.

Cambodia.—The upturn in leading markets resulted in the mill buyers up whatever was available of Cambodia and prices for good average quality were driven up from about Rs. 250 to about Rs. 300. There was very little quantity remaining unsold at the end of the month.

There was an enquiry from outside the press for other Tinnevellies or Cambodia as the respective prices compared unfavourably with those of other cottons.

Sugar.

The Madras market continued firm and prices increased steadily owing to the rapid increase in Java prices reported from Bombay, firmer advices from Java direct, and the uncertainty prevailing in Northern India in regard to the starting date of crushing. The second fortnight opened with dull conditions consequent on the decline in demand after Deepavali and weaker advices from the Bombay market which was adversely affected by arrivals of old crop North Indian sugars at old rates. Towards the last week of the month, the market showed a rising tendency on advices from Calcutta and Cawnpore indicating a strong forward position and a prospective shortage of ready sugar. Dealers began to rush in to purchase whatever quantity of ready sugar was available irrespective of rates quoted by the mills. Fresh high levels were created every day. The position was further strengthened on the removal of uncertainty regarding the sliding scale of cane prices fixed by the United Provinces Government, and a further increase in Naini basis with limited offerings. The market closed very strong with signs of an upward tendency. The price of Nellikuppam sugar was Rs. 36-8-0 per bag of 180 rats at the end of November as compared with Rs. 33-8-0 at the end of October.

Hides and Skins.

Tanned hides.—On November 6th a new schedule of prices was cabled out from London registering a rise of anything from 1d to 5d. per lb. The advance, however, for the lines in most demand averaged about 3d. to 3½d. per lb. Inferior Frths were raised only by 1d per lb. There was little shipment business put through during the first week of the month, but buying continued freely and prices advanced. As soon as the new control prices were known, the market quickly adjusted itself and remained fairly steady up to the end of the month on the basis of the revised prices which were as follows:—

Prime 5/5½ lb 21d., Prime 8/9½ lb 16½d
Prime 20/12 lb 13d. with best tannage at 14d per lb less, Cocos 7½ lb 12½d.

Uncontrolled lines including Cow and Buff calf and Buff hides steadily advanced up to practically the end of the month when there was a reaction in prices and raw calf which at one time reached 4½d. was difficult to sell at 3¾d. Buff calf fell from 2¾d. to 2½d and Buff hides from 15/16½. to 13½/14d. During the month there was a steady increase in the price of raw hides.

Tanned goat and sheep skins.—Business over the first two weeks of the month continued steadily both in tanned goat and tanned sheep skins, with possibly several more marks which had hitherto been sent on consignment finding buyers for direct sales. At the commencement of the month, owing to the increase in prices realised at the public auctions held in October, which had already been reflected in the Madras markets, it was anticipated by the suppliers, that further advances would be seen, but the much higher prices demanded were not accepted immediately. About the middle of the month, however, business was done at a further increase of about four annas per pound above the prices ruling at the end of October. About the 21st November, some disquieting rumours were received from London to the effect that all markets had suddenly become inactive, and for several days there was a distinct falling off in both Madras offerings and London buying, especially in tanned goat. Tanned sheep continued to sell fairly steadily in smaller quantities at about 1d to 2d. per lb lower than the previous prices. The tanned goat market at the end of the month dropped by about four annas per lb in Madras. At the end of the month both the tanned goat and tanned sheep skins markets were quieter.

Shipments of hides and skins during November were as follows:—

Statistics—Cotton—1939-40—Third Forecast Report.

The acreage of the area under cotton in the Madras Province during the five years ending 1937-38 has represented 8·9 per cent of the total area under cotton in India.

2. The area under cotton up to the 25th November 1939 is estimated at 2,730,300 acres. When compared with the area of 1,901,100 acres estimated for the corresponding period of last year, it reveals an increase of 19·5 per cent

The increase in area is general in all the important cotton growing districts outside Guntur and is attributed to favourable rains as well as good prices at the sowing season.

The area under irrigated cotton, mainly Cambodia, is estimated at 1,3,800 acres as against 129,400 acres in the corresponding period of last year thereby representing an increase of 18·9 per cent.

3. Pickings of the mungari or early sown crop in parts of the Deccan are in progress and the yield is expected to be normal. In the districts of East Godavari and Trichinopoly the crop has been affected to some extent by the heavy rains in October

Normal yields are expected in all the districts outside East Godavari and Trichinopoly. The seasonal factor for the Province as a whole works out to 100 per cent of the average as against 97 per cent in the corresponding period in the previous year. On this basis, the total yield is estimated at 2,61,000 bales of 400 lb. lint as against 294 200 bales of last year, thereby representing an increase of 24·7 per cent. The crop is young and it is too early to estimate the yield with accuracy.

4. The estimated area and yield according to varieties are given below :—

(*Area in hundreds of acres, i.e., 00 being omitted ; yield in hundreds of bales of 400 lb. lint, i.e., 00 being omitted.*)

* Includes Karungani in Coimbatore, Upcam, Karunganni and mixed varieties of cotton in Madura, Ramnad and Tinnevelly.

5. The local cotton trade is not generally active at this time of the year. The average wholesale price of cotton lint per imperial maund of 82-2/7 lb. as reported from important markets on 4th December 1939 was about Rs. 21-1-0 for Cocanadas, Rs. 21-6-0 for red and white Northerns, Rs. 22-13-0 for Westerns (Mungari crop), Rs. 23-10-0 for Westerns (Jowari crop), Rs. 30-10-0 for Coimbatore Cambodia, Rs. 31-3-0 for Southern Cambodia, Rs. 37 for Coimbatore Karunganni, Rs. 23-11-0 for Tinnevelly Karunganni, Rs. 27-15-0 for Tinnevellies and Rs. 22-9-0 for Nadam cotton. When compared with the prices published in the last report, i.e., those which prevailed on 9th November 1938, these prices reveal a rise of about 30 per cent in the case of white Northerns and Westerns (Mungari crop), 37 per cent in the case of red Northerns and Westerns (Jowari crop), 33 per cent in the case of Southern Cambodia, 31 per cent in the case of Tinnevellies, 28 per cent in the case of Tinnevelly Karunganni, 25 per cent in the case of Cocanadas, 16 per cent in the case of Coimbatore Cambodia and Nadam, and 9 per cent in the case of Coimbatore Karunganni.

6 Figures by districts are given in Statement I. Figures of area by varieties in the Central districts and the south are given in Statement II.

Madras, 8th December 1939.

Statistics—Crop—Castor—1939—First or Final report.

The average of the areas under castor in the Madras Province during the five years ending 1937-38 has represented 1·9 per cent of the total area under castor in India.

2. The area under castor in the Madras Province up to 24th November 1939 is estimated at 272,600 acres. When compared with the area of 254,000 acres estimated during the corresponding period of last year, it reveals an increase of 6·3 per cent. The estimate of last year was below the actual area of 270,278 acres by 5·9 per cent.

3. An increase in area is estimated in Bellary, Anantapur and Chittoor partly counterbalanced by an estimated decrease in area in the other districts. The increase is marked in Anantapur (plus 14,600 acres).

4. The yield is expected to be normal in all districts except Chittoor where it is estimated to be slightly below normal. The seasonal factor for the Province as a whole is estimated to be 100 per cent of the normal. On this basis, the yield is estimated at 26,800 tons as against 25,700 tons estimated for the corresponding period of last year and 22,410 tons estimated in the season and crop report of last year.

5. The wholesale price of castor seed per imperial measure of 82·2/7 lb. (equivalent to 3,200 kilos) as reported from important markets on 15th December 1939 was Rs. 6-14-0 in Nandyal, Rs. 5-8-0 in Vizianagram and Bellary, Rs 6-6-0 in Salem, Rs. 6 in Cuddapah, Rs. 4-10-0 in Hindupur and Rs. 4-8-0 in Anantapur. When compared with the prices reported in the previous year, i.e., those which prevailed on 16th December 1938, these prices reveal a rise of approximately 35 per cent in Bellary, 31 per cent in Nandyal, 28 per cent in Salem, 10 per cent in Vizianagram and 12 per cent in Hindupur and a fall of approximately 2 per cent in Cuddapah, the price remaining stationary in Anantapur.

6. Figures by districts are given in the statement below :—

This security deposit together with the earnest money and the amount will be held according to clause 69 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of this contract. Failure to attend the Superintending Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper Officer authorized to enter into contract on behalf of Government.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender rate rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Superintending Engineer Trichinopoly Circle. A copy of the set of contract documents can also be had on payment of Rs. 15 for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specifications". Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, hills etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer Trichinopoly Division or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this

schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be set out over-leaf and in words and figures. The rates should be written both in words and figures, and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. The schedule accompanying the lump-sum tender shall be set out legibly and free from erasures, overwritings or corrections of figures. Corrections when unavoidable, should be made by crossing out, initialling, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the schedule of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market values for these materials the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The allowing rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

Preference in the selection from among the tenderers will be given, other things being equal, to those who are themselves professionally qualified or who undertake to employ qualified men at their cost to look after the work. The tenderers should therefore state in clear terms whether they are professionally qualified or whether they undertake to employ technical staff and if so to give their professional qualifications of of the staff to be employed. In case the selected tenderer is one who has no intentions to employ technical staff under him, he should see that one of the staff is always at site of the work during working hours, personally checking all items of work and paying extra attention to such works as may demand special attention, e.g., reinforced concrete work, etc.

(i) to deposit two months' rent of all shops knocked down to him; or

(ii) to execute a mortgage of his immovable property in favour of the Government for all moneys that may become due under the terms of the contract with a power of sale in favour of the mortgagee to be exercised in default of payment thereof by the purchaser; or

(iii) to produce a surety or sureties, to be accepted by the Collector, who should execute a security bond for the due payment of all moneys that may become due by the purchaser under the terms of the contract and to execute a mortgage deed of his or their immovable property in favour of the Government for the payment of all moneys due under the said contract by the purchaser with a power of sale in favour of the mortgagee in default of payment thereof by the surety or sureties or by the purchaser.

If the Collector is not satisfied that the value of the immovable property tendered as security by the purchaser under sub-clause (ii) supra is adequate he shall require him to produce, in addition to mortgaging his property, a surety or sureties to be approved by the Collector, who shall execute a security bond for the balance of the money that may become due, and a mortgage deed of his or their property in favour of the Government.

The sureties referred to in this clause (b) shall submit to the Collector a statement in the prescribed form, showing details of their immovable property.

The purchaser shall be bound to carry out the provisions of this clause (b) within ten days from the date of communication to him of the Collector's orders requiring him to do so.

The bond and the mortgage deeds shall be stamped and registered at the expense of the purchaser. He shall be bound to execute a counterpart agreement. The purchaser or his surety must produce at his cost an encumbrance certificate in cases in which immovable property is mortgaged to the Government.

(c) On the failure of any person to make deposit or apply for a licence under clause 3 (a) above or to comply with any requisitions or to execute any engagement under clause 3 (b) above, the deposits already made may be forfeited and the shop may be resold or otherwise disposed of by the Collector. Resales under this condition will be at the risk of the defaulting bidder, who will forfeit all gain and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposits will be deducted from the loss arising from the resale, and the remainder, if any, will be recoverable in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by resale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the shop is disposed of otherwise than by resale and such disposal results in loss to Government as compared with the original sale. Disposal otherwise than by resale includes closure.

4. Temporary licence will not be issued except in special cases and in no case where the issue of the permanent licence is delayed through the failure of the licensee to comply with the conditions set forth above and in the annual notification of the Commissioner of Excise.

5. As regard the payments of kists, etc., the following rules will be observed —

(i) The kists, etc., should be paid not later than the 10th of each month.

(ii) Interest at the rate of one pie per rupee per month will be charged on payments made after the 10th of the month.

Madras Irrigation Cess (Amendment) Bill, 1940 1

The following Bill, together with the Statement of Objects and Reasons, is published for the purpose of eliciting opinion. Notice is hereby given that the said Bill will be considered on or after the 17th February 1940 and that any objection or suggestion which may be received with respect thereto before the said date by the Secretary to the Government of Madras in the Revenue Department, will be considered.

A Bill further to amend the Madras Irrigation Cess Act, 1865, for certain purposes.

Madras Act VII of 1865

WHEREAS it is expedient further to amend the Madras Irrigation Cess Act, 1865, for the purposes hereinafter appearing; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Madras Irrigation Cess (Amendment) Act, 1940

Madras Act VII of 1865.

Substitution of new section for section 1, Madras Act VII of 1865.

2. For section 1 of the Madras Irrigation Cess Act, 1865 (hereinafter referred to as the said Act), the following section shall be substituted, namely :—

Power to levy water-cess in addition to assessment on land.

" 1. (*a*) Whenever water is supplied or used for purposes of irrigation from any river, stream, channel, tank or work belonging to, or constructed by or on behalf of, the Crown, and

(b) whenever water from any such river, stream, channel, tank or work, by direct flow, or by indirect flow, percolation or drainage from or through adjoining land, irrigates any land under cultivation, or flows into a reservoir and thereafter, by direct flow, or by indirect flow, percolation or drainage from or through adjoining land, irrigates any land under cultivation, and in the opinion of the Revenue Officer empowered to charge water-cess, subject to the control of the Collector and the Board of Revenue, such irrigation is beneficial to, and sufficient for the requirements of, the crop on such land,

it shall be lawful for the Provincial Government before the end of the revenue year succeeding that in which the irrigation takes place to levy at pleasure on the land so irrigated a separate cess for such water, and the Provincial Government may prescribe the rules under which, and the rates at which, such water-cess shall be levied, and alter or amend the same from time to time :

Provided that where a zamindar or inamdar or any other description of landholder not holding under ryotwari settlement is by virtue of engagements with the Crown entitled to irrigation free of separate charge, no cess under this Act shall be imposed for water supplied to the extent of this right and no more :

Provided also that no cess shall be leviable under this Act in respect of land held under ryotwari settlement which is classified and assessed as wet, unless the same be irrigated, whether voluntarily or involuntarily and whether wholly or in part—

(i) from any source hereinbefore mentioned, not being a source which has been assigned by the Revenue authorities or adjudged by a competent Civil Court as the source of irrigation of such land ; or

(ii) from any source assigned or adjudged as aforesaid in respect of such land, otherwise than in accordance with any

order of the Revenue authorities regulating the time, method and conditions of supply of water for the irrigation of such land from such source free of separate charge."

Indemnification for acts done before the commencement of this Act.

3. (1) No suit or other proceeding shall lie against the Provincial Government, or any officer or servant of the said Government, or any authority subordinate to them, or any person acting under the authority of or with the permission of the said Government, officer, servant or authority, in respect of any act done or purporting to be done before the commencement of this Act under section 1 of the said Act, if such act could have been done under the said section 1 as amended by this Act, and the Provincial Government and all officers, servants, authorities and persons aforesaid are hereby indemnified and discharged from all liability in respect of all such acts in so far as they could have been done under the said section 1 as amended by this Act.

(2) Any suit or other proceeding instituted before the commencement of this Act in respect of any act done or purporting to be done under section 1 of the said Act shall be disposed of as if the said section 1 as amended by this Act, had been in force at the time of the institution of the said suit or proceeding in the Court of first instance.

STATEMENT OF OBJECTS AND REASONS

The conservation and control of works of irrigation in India have from the earliest times been in the hands of the ruling power which has exercised its authority so as to secure a just and equitable distribution of the available supplies. For the purpose of such distribution it is generally recognized that the holders of registered wet lands have the first call on the supply available for irrigation and water is allowed to such wet lands for the irrigation of one crop or of two crops, according as they are registered as single crop wet or double crop wet. In order to make the best use of the supply in the interests of all holders of wet lands, it is often necessary to institute special turns during which the source of irrigation is open only for the use of specified portions of the ayacut and is closed to others. When available, water is also allowed on

permits for the irrigation of dry lands and for raising a second crop on single crop wet lands The taking of water for irrigation in cases other than those mentioned above or during periods when the irrigation work is closed is prohibited. It frequently happens, however, that ryots take water clandestinely to dry lands which are not entitled to water at all or to wet lands at periods during which such lands are not entitled to supply by making a breach in the channel bunds or by tampering with the sluices, etc In order to prevent such unauthorized taking of water, it has hitherto been the practice to levy enhanced water-cess under the rules made in that behalf under the Madras Irrigation Cess Act, 1865 (Madras Act VII of 1865). Such enhanced water-cess has usually to be levied on all the lands actually irrigated by irregular means as it is seldom possible to identify the particular individual who is responsible for the irregularity. The High Court has however held in two recent cases—I L R., 1937 Mad., 772 and I L R., 59 Mad., 107—that under the Madras Irrigation Cess Act as it now stands, water-cess can be levied only where the user of water is voluntary. It is, however, essential if Government are to discharge their responsibility for securing a just and equitable distribution of available supplies, that they should be armed with the power necessary to enforce the scheme of distribution laid down It is therefore proposed to amend the wording of the Act so that the practice hitherto followed, as explained above, may be covered by express statutory provision.

2. The second proviso to section 1 of the Irrigation Cess Act runs as follows :—

> "Provided also that no cess shall be leviable under this Act in respect of land held under ryotwari settlement which is classified and assessed as wet, unless the same be irrigated by using without due authority water from any source hereinbefore mentioned and such source is different from or in addition to that which has been assigned by the Revenue-authorities or adjudged by a competent Civil Court as the source of irrigation of such land."

Under this proviso, single crop wet lands are given water for one crop without any extra charge. The quantity of water available for irrigation is limited and it is not possible to supply water for a second crop to all *single* crop wet lands. The holders of registered double crop wet lands have a first call on water for the cultivation of a second crop and unauthorized use of such water by the holders of single crop wet lands will make it impossible for the Government to secure to the holders of registered double crop lands the supply to

which they are entitled Where therefore water is taken for irrigating a second crop on single crop wet lands without due authorization, the practice has always been to levy enhanced water-cess according to the rules framed under the Madras Irrigation Cess Act. In a recent judgment delivered in May last [(1939) 2 M L J., 386] however, the High Court has held that the above proviso does not permit of the levy of water-cess for the irrigation of a second crop on single crop wet land, unless the water is taken from a source *physically different* from that allotted to the land This ruling would invalidate the immemorial practice and enable any holder of single crop wet land to take water for a second crop from the source assigned to such land, without liability to any charge under the Madras Irrigation Cess Act. It is therefore essential to amend the wording of the proviso so that the existing practice may be covered by it

3. As the High Court has held that the rules framed under section 1 of the Act are *ultra vires* in so far as they permit of the levy of enhanced water-cess in the cases mentioned above, it is proposed to give retrospective effect to the amendments made by the Bill and also specifically to indemnify the Government and their officers from liability in respect of acts done on the basis of the interpretation of section 1 which has been accepted and acted upon by the Government all these years

It may be stated that the late Ministry shortly before its resignation approved of legislation on the lines proposed in the Bill.

(By order of His Excellency the Governor)

P. APPU NAIR,
Secretary to Government, Legal Department.
